PROJECTS

-Dash-

JavaScript, CSS, OpenWeather API, HTML

A dashboard that lets users set custom timers. It also provides weather and location information using the OpenWeather API.

Priceless Prints

JavaScript, jQuery, BootStrap, CSS, HTML

A photography website, built as a mockup ecommerce store for selling canvas prints and displaying high quality photographs.

Portfolio

JavaScript, SASS, CSS, HTML

My personal portfolio website, which hosts all other projects hosted via Cloudflare and GitHub Pages.

EDUCATION

Full Stack Web Development @ Coding Dojo

October 2017 - March 2018

An immersive web development program specialized in full stack training for Front End Development (JavaScript, CSS, HTML) Node (Node, Express, MongoDB) and Python (Django, Flask, SQL.) Coding Dojo trains students to be fast and efficient learners by going through a rigorous 60+ hours a week schedule with exposure to a plethora of different technologies.
